GOLF COURSE FURNISHINGS, SIGNS & MARKETING

ABOUT GOLF SIGN & DESIGN

Golf Sign and Design is a company that has been in business continually since 1991. Founded by Tom Eubank, who played the PGA Tour from 1990-1992, had a vision to provide better golf course yardage markers due to most courses being improperly marked in the early 1990's.

What started as a yardage guide and sprinkler marking business quickly evolved into tee markers, signs, and a host of miscellaneous products every course needs on a regular basis. As the company started adding key staff to ensure steady but manageable growth, Golf Sign and Design became firmly established as one of the premier companies providing course accessories and signage across the USA.

In 2014, the company decided to add furnishings to the line up and that quickly became a successful venture. In 2017 the need to produce the furnishings in Georgia, creating the only furniture manufacturer in the South East became a reality and within just a few years some of the top courses in the country were trusting us to create and build their high end furnishings.

As our product line grew and our capabilities to provide custom high end products evolved, we started getting the attention of premier management companies and courses. Hampton Golf is using us exclusively now along with easily recognized names like Pinehurst, Sea Island, and Streamsong.

Give us a call or send us an email. It will be the best decision you've ever made!

Professional and Superintendent - We work with both for convenience, savings, and the best course and clubhouse solutions!

COUNTRY CLUB at MIRASOL, Palm Beach Gardens, FL

It has been great working with Golf Sign and Design for the past few years. Tom Eubank is very professional and knowledgeable and his company has always given us terrific service. We currently use quite a few of their products and I would highly recommend them for any of your course marketing or signage needs.

FURNITURE - PATIO TABLES

Our facility went through a clubhouse expansion and renovation in 2021-2022. Part of that renovation was an expansion of our patio and all new patio furniture. We looked at many different patio sets from many different companies. Then in January 2022, we met Tom with Golf Sign and Design at the PGA Merchandise Show. We were absolutely thrilled with the quality of their patio furniture and invited them to bid on our project. Golf Sign and Design was our low bidder, and it wasn't even close, as they saved us about 1/3 compared to the next closest bid. We selected Golf Sign and Design for our project and that was a great choice. Tom and his team at Golf Sign and Design were fabulous to work with throughout the project. We received our patio furniture in May 2022, and we absolutely love it and so do our customers. I would highly recommend talking with Tom and his team if you have any outdoor furniture or on course needs.

Belfair, Bluffton, SC

Recently, Belfair needed to update our course furniture for our Practice Range and Starters. We ended up selecting Tom Eubank and his team at Golf Sign and Design. The personalized service and attention to our needs I received were as good as I have experienced in my career as a PGA Professional. Not only was the product outstanding, but the pricing was more than fair.

Thanks, Tom, and your exceptional team at Golf Sign and Design!

Golf Sign and Design came in and provided a proposal for us for our renovation that not only saved us money, but also kept us from having to hire 3 different vendors. They provided all of our furniture, including custom pieces, our signs for the course and clubhouse, our yardage books and they even measured our course as part of the package. I have received great service and always at a very fair price. I recommend Tom Eubank and Golf Sign and Design to anyone needing furnishings, signage or yardage guides.

SIGN SOLUTIONS - CAST BRONZE

Cast Bronze has long been the classic option for the discerning golf course. We have both the design skills and the casting warehouse to make your signs unique, attractive and at great pricing. **WHY?** Because we work on lower margins and intend to earn your business for life. We would rather count on a long-term relationship as your sign and marketing provider, than to try and capitalize on a one time sale.

We provide the best quality and price combination of any US company and all product is made here in the USA!

SIGN SOLUTIONS - CAST ALUMINUM

We also can add your golf hole in either overhead version or in a 3D model of the hole.

SIGN SOLUTIONS - CAST ALUMINUM

Cast Aluminum is sand cast the identical way bronze is cast, but is much lighter and, of course, has a different color and look. It may be the best fit for your club due to the lower cost and the long life it offers.

Face Painted Aluminum allows you to capitalize on the lower cost of aluminum while enjoying the look of bronze. We simply roll the raised areas in a gold paint and you have a classic look without the cost. You could expect to refinish these types of signs every 7-8 years. Wildcat Cliffs is 14 years running and they look great with no chipping or peeling.

SIGN SOLUTIONS - CUSTOM TEE MARKERS

We can create an entirely new pattern to make your tee markers both unique and attractive. And the majority of the time they price out well below your expectations.

We love to hear.... *"It can't be done"*. Several competitors said that about the Fiddlesticks Bagpiper to the left, but we did it and YES.... it is double sided!

SIGN SOLUTIONS - WEDGE TEE MARKERS

Wedge Tee Markers - These markers have long been the most popular ordered tee marker we sell and with good reason. Most important is they are attractive and easy to see from the cart path making tee choice a breeze for your members and guests. But here is the best reason: We blow away the competition on pricing on these wedge tee markers.

5.5" round or 4.5" x 6" oval in vertical or horizontal format.

11 PAR 5

Tee: 654
 ● 630
 ○ 574
 ● 550
 ● 513
 ● 486
 ○ 486

Courage and accuracy off the tee can make this intimidating, long par 5, be much more manageable. Tee balls carrying or curving around the deep sandy waste area on the inside of the dog leg finding the left half of the fairway can catch the big downhill "speed slot" that could advance the ball another 100 yards forward. Large sandy waste areas protect both sides of the second landing area challenging the golfer to lay up or try to hit past them. The sloping green sits on top of a large hill creating exciting but demanding approach shots.

Drone Photos & 4K Video

No, this is not your average drone! We shoot giant format and 4K video.

When providing photography and video packages, we shoot hundreds of shots from the drone and from a DSLR on a ladder for the elevation needed to make photos great.

With the combination of both styles, you get amazing photography with a great variety for your website and marketing needs. Every hole on your course may not be great, but we can give you great photos for every hole!

If your course is in good to great condition we can offer you amazing drone footage either in a composite video or as an individual hole by hole flyover for the course. Throw in professional voice over and license free music for a touch of class that will enhance your website viewer's experience.

ARCHITECTS CORNER

Architects are brilliant. They make incredible golf courses all over the world, but they have one thing in common; very few can create 3D imagery of the designs they are proposing to the client. It is just not their specialty. But it is our specialty at Golf Sign and Design.

We work with many architects to make their vision come to life. They show us their CAD drawing, share with us some of their design features and "voile"... amazing 3D renderings.

The end result is an amazing presentation!

"Tom's knowledge and understanding of the game of golf shows in the quality and artistry of his work. The projects he has done for us have turned out great!"

KIPP SCHULTIES DESIGN, Jupiter, FL

"Tom Eubank takes the concepts I create and puts them into a 3D format that I can present to my clients to show what the final design will look like. The details in the rock walls, trees, and elevation movements are exceptional. They always meet their deadlines and have been very easy to work with."

KIPP SCHULTIES, Golf Course Architect

ARCHITECTS LOVE US - WE MAKE THEIR VISION COME ALIVE!

"When PB Dye called me and asked how quick I could be in Maryland to drive through his new project and turn around 3D renderings for Links at Perry's Cabin, I said, "As soon as you can book the flight!"

We drove the dirt and he explained his vision, and 2 weeks later, we had renderings to show the owner."

Tom Eubank, Owner, Golf Sign & Design

Golf Sign & Design takes the genius of the architect's concepts and brings them to life before it is even built. The end result is beautiful imagery that can be used in marketing or just to show the client what the course can look like when completed.

DYE DESIGNS

"The Dyes have had a great long-term relationship with Tom Eubank and his work. We look forward to working with him on all our future projects."

He's The Best!"
